Unichem Pharmaceuticals Launches Generic Zyloprim® – Allopurinol

Unichem Pharmaceuticals (USA), Inc. is pleased to announce the launch of Allopurinol Tablets, USP to our growing portfolio.

Allopurinol Tablets, USP is the generic version of Zyloprim® from Casper Pharma LLC. Allopurinol tablet USP is indicated in the management of patients with signs and symptoms of primary or secondary gout, the management of patients with leukemia, lymphoma, and malignancies who are receiving cancer therapy which causes elevations of serum and urinary uric acid levels, and the management of patients with recurrent calcium oxalate calculi whose daily uric acid excretion exceeds 800mg/day in male patients and 750mg/day in female patients. IQVIA recorded sales of \$118M and 1.08B tablets of Allopurinol during the last 12 months ending April 2019. Allopurinol Tablets, USP is available in 100mg & 300mg – 100ct, 500ct, & 1000ct bottles.

President and Chief Executive Officer, Scott Delaney, an accomplished leader with over 25 years of experience in brand and generic pharmaceuticals management, said the following, regarding the launch.

“I cannot stress the importance of launching new products into the generic industry. In a market that thrives on the opportunity to help patients receive the treatment they need at a cost beneficial to them, Allopurinol provides another example of Unichem’s commitment to this vision. Our focus on service, innovation and reliability helps us compete effectively in this high-volume, low cost market and allows us to expand our footprint in the US market and better serve our patients.”

About Unichem Pharmaceuticals (USA), Inc:
